ecowin

Soft Shades - curtains with a soft, delicate finish, are a stylish and functional decorative solution that works perfectly in homes and offices.

Made from fabrics that gently diffuse light, they create a cozy atmosphere within the room. They allow for subtle darkening of the interior without completely blocking the light

These curtains are characterized by an elegant and soft appearance that adds lightness and harmony to spaces. Their simple yet stylish design makes them an excellent fit for both classic and modern interiors.

# SOFT SHADE
# NELIO

An elegant window cover designed for very large windows, allowing precise control over the angle and intensity of light. The angular head rail adds a modern touch.

- Manual control with a ballchain mechanism.

- Rail and accessory color options: white, black, silver.

# SOFT SHADE CLASSIC

A universal and popular type of window covering. Fabric lamels can be positioned at various angles, allowing precise control of the amount of light entering the interior. The head rail has a slightly rounded design.

- Manual control with a ballchain mechanism. Rail and accessory color options: white, black, silver.

- Manual control with a wand mechanism. Rail and accessory color options: white.

- Electric control with a Compact Elektro motor, 0.5A, 24V DC. Rail and accessory color options: white.

**SOMFY**

Electric controls in sun protection systems are gaining popularity due to their convenience, energy efficiency and ability to integrate with smart home systems. Electronic controls enable the automation of shading operations, offering numerous benefits in terms of user comfort and optimizing indoor conditions.
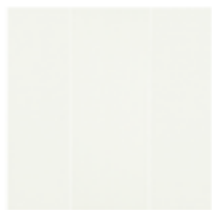

Soft Shades are available in two patterns with different textures and shades in trendy, calm earth tones, allowing them to be matched to a specific interior style.

**Soft Shades:**

- Functionality – ideal for covering large glass surfaces, perfect for both private and commercial interiors.

- Light Control – allows precise control over light intensity, creating an optimal atmosphere at any time of day.

- Privacy Feature – semi-transparent fabric provides discretion while still allowing natural light to enter.

- Easy Access – each slat operates independently, enabling easy movement between the slats.

- Elegance – adds an exclusive, cozy character to interiors, enhancing their aesthetic appeal.

- Fabric Comfort and Style – designed for any type of room, the woven fabrics enhance relaxation and create a pleasant, soothing space.
